Note: 100 % stab protection cannot be guaranteed.

Code: IN01 (Gr. 9), IN02 (Gr. 10), IN03 (Gr. 11), IN04 (Gr. 12)

Protective suit Plus

Cotton twill fabric with four pockets and rubber cuffs. High wearing comfort – proven in countless applications, pleasant and safe due to spacer ring as well as a rear-folding or removable visor hood with head recess and additional ventilation, available in the following sizes: L (54/56), XL (58/60) und XXL (62/64) – other sizes available on request.

Note: 100 % stab protection cannot be guaranteed.

Code: IN06 (Gr. L), IN07 (Gr. XL), IN08 (Gr. XXL)

Protective equipment

Protection suit including helmet

Wasp and hornet protection suit.

Size: XL

Color: blue

Suit made of 100 % cotton (500 g/m²), zipper from crotch to head or closes at the top of the helmet. Fabric flap additionally secures the zipper. Wide cuffs made of firm, elastic material. Elastic band on the ankles, integrated safety helmet. Viewing window with Velcro fastener, can be opened if necessary.

Note: 100 % puncture protection cannot be guaranteed.

Code: IN11

Safety goggles (hornets)

Optimal protection for the work with hornets. Adjustable temple, 99.9 % UV protection, eye goggles according to DIN EN 166 1. Adaption to any head shape with excellent field of view. Scratch resistant, adjustable temple length (4 positions).

Code: IN12

Trouser rubber

1 pair, black, with Velcro, protection from insects in trouser legs and shoes.

Code: IN14

Devices & Accessories

Dust pump including extension

Bulb Dust pump

With curved tip and 30 cm extension, basic equipment for insect inserts, for targeted application of Ficam® D dust powder, easy filling, robust and durable.

Code: IN20

Extension only, for dust pump:

Code: IN21

Gaspot

Gaspot PA2 Professional incl. 12 CO² cartridges (12 g) in case

Professional dust device for the application of dust powder (Ficam® D) for wasp control. The Gaspot is lightweight and compact as well as quick and easy to use. Application with powerful Co2 cartridge, which drives the powder up to 4.5 m through the extension.

Content:

- CO₂ cartridges, 12 pieces
- Handpiece
- Filling bucket
- Dust tank + cap + regulating valve + adapter
- Extension handle
- Top-mounted hose

Further accessories as well as all spare/small parts available separately on request.

Code: IN22

Gaspot Extension

Aluminium extension for use with GPS Gaspot PA2.

Extension to a maximum of 4.5 m possible.

Available in 2 lengths:

Gaspot extension 70 cm

Code: IN23

Gaspot extension 150 cm

Code: IN24

CO² cartridges – 12 g for Gaspot PA2 (pack of 10)

Code: IN25

Gaspot conversion kit

Gaspot Handpiece + Co² Cartridge Holder

Spare part or for conversion from the old GPS Gaspot to the new Gaspot PA2 system.

Further accessories as well as all spare/small parts available separately on request.

Code: IN26

Gaspot transport pipe for extensions

Black plastic pipe for gaspot extensions.

Length approx. 165 cm

Diameter approx. 6 cm

Further accessories as well as all spare/small parts available separately on request.

Code: IN27

Filling bucket

To fill Dust pump and Gaspot PA2.

Code: IN30

Beekeeper spatula

Beekeeper spatula for the removal of insect nests.

60 mm wide, flexible blade, stainless steel, plastic handle for easy cleaning.

Code: IN31

Insect Sprays & Biocides

Wasp spray

Aco.spray Wasp PLUS

2,5 g/l Cyphenothrin; 15 g/l Pyrethrum-Extrakt 25 %, 20,0 g/l Piperonylbutoxid
bawa Reg-Nr.: N-39429

Professional wasp spray for fast and safe control of wasps and other domestic and hygiene pests. Fast immediate effect due to special combination of active ingredients. Long-term effect of the spray coating, high spray pressure, finest mist distribution in cavities, long spray tube for targeted application, overhead spraying through ball valve possible, with propellant propane/butane.

Available in 150 ml or 400 ml cans.

Wasp spray 150 ml

Code: IN51

Wasp spray 400 ml

Code: IN52

Sale exclusively for fire brigades and commercial customers!
Use biocidal products carefully. Always read the label and product information!

Ficam® D Dust powder

12 mg/g Bendiocarb
bawa Reg-Nr.: N-10786

Insecticidal powder for controlling flying and crawling insects in inaccessible areas of residential and hospital, hotels, offices, factories and storage rooms, stables, commercial and food businesses and much more.

Good long-term and fast knock-down effect. Typical areas of application are cavities in the area of roofs and drywall, installation shafts, electrical systems and wherever the application of liquid sprays is not appropriate.

Application: approx. 10-20 g per m² dust (with the help of a Dust pump or Gaspot PA2) - 3 kg container

Against wasps: To be treated in the special entrance and environment of the nest. Ficam® D does not increase the aggressiveness of wasps.

Code: IN53

Sale exclusively for fire brigades and commercial customers!
Use biocidal products carefully. Always read the label and product information!

Quartz® Dust powder

Wirkstoff: 5 mg/g Azametiphos
bawa Reg-Nr.: N-54426

Same application as Ficam® D, with different active ingredient. Insecticidal powder for combating flying and crawling insects in inaccessible places.

Good long-term effect. Typical areas of application are cavities in the area of roofs and drywall, installation shafts, electrical systems and wherever the application of liquid sprays is not appropriate.

Application: apply about 50 g directly into the nest or entry holes. (e.g. with the help of a hand dust pump or gaspot) - 3 kg container.

Code: IN54

Sale exclusively for fire brigades and commercial customers!
Use biocidal products carefully. Always read the label and product information!

Miscellaneous & Useful

Relocation box for hornets and wasps

bee-safe relocation box for hornets and wasp nests

Developed and built in our bee-safe workshop Austria.

- Made of robust, multi-layered and weatherproof screen printing plates
- Opening flap at the front for inserting the nest
- Dropings or flight opening at the bottom, can be closed for a safe transport
- Fastened quickly and safely in a suitable place (trees) by means of the supplied ratchet strap
- Reusable several times

External dimensions: height 60 cm, width 40 cm, depth 35 cm

Delivery period: approx. 14 working days

Code: IN60

Wespenschreck® Waspinator

Wasp Scare - Environmentally friendly and without poison!

Wasps and hornets are not attracted and killed, but simply "scared away".

Takes advantage of the territorial behavior of wasps and hornets by faking a real wasp or hornet nest. Since wasps and hornets already avoid "occupied territory", they fly away. Wasp nest dummy for use on balcony or terrace, in guest gardens, camping and picnics, etc.,

Effective range is approx. 7 m² – 10 m², if necessary more pieces distributed;

Made of recyclable plastic fabric (not weather-resistant in the long run), can be folded up comfortably.

Code: IN70

bite away® Stitch healer

Stick for external treatment of insect bites and bites such as wasps, bees, hornets and gadflies.

Its principle of action is based on concentrated heat. With local thermal treatment of the puncture site, from a temperature of about 50 ° C partially a decomposition of the insect venom and a suppression of the release of the body's own histamine takes place.

After application, itching and swelling of affected areas are reduced or even disappear completely.

Code: IN71

Spider Catcher

Spiders and other insects can be picked up easily, quickly and animal-friendly and reintroduced in a suitable place (outdoors) without injuring or killing the animal.

From a comfortable distance, perfect for all those who are afraid of the crawling animals. With plastic spider for practicing.

- 65 cm long gripper with PVC bristles for mounting
- Patented original

Code: IN72
