## bee-safe Kits

### Animal Rescue BASIC Kit

- **Protective Equipment**
  - Protective gloves Plus
- **Equipment & Rescue Equipment**
  - Landing Net Standard
  - Snake hook
  - Snake sack
- **Miscellaneous & Useful**
  - Transport carton (2 pieces)
  - Rescue blanket for animals

**Code:** TS01

### Animal Rescue STANDARD Kit

- **Protective Equipment**
  - Protective gloves Plus (2 pair)
- **Equipment & Rescue Equipment**
  - Throwing net
  - Landing net Plus
  - Snake tong 100 cm
  - Snake hook
  - Snake sack
- **Miscellaneous & Useful**
  - Transport carton (2 pieces)
  - Rescue blanket for animals

**Code:** TS02

## Animal Rescue PROFI Kit

- **Protective Equipment**
  - Protective gloves Plus
  - Protective gloves Profi
- **Equipment & Rescue Equipment**
  - Throwing net
  - Landing net Plus
  - Dog pole
  - Snake tong 100 cm
  - Snake hook
  - Snake sack
- **Miscellaneous & Useful**
  - Transport carton (2 pieces)
  - Rescue blanket for animals

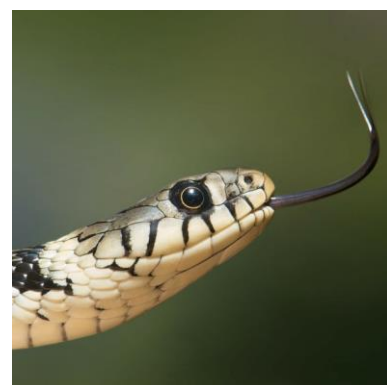

**Code:** TS03

## Snake BASIC Kit

- **Protective Equipment**
  - Protective gloves Plus
- **Equipment & Rescue Equipment**
  - Snake tong 60 cm
  - Snake hook
  - Snake sack

**Code:** TS04

## Protective Equipment

### Protective gloves Plus

Elbow-length gloves made of particularly stab- and bite-resistant and at the same time very flexible cowhide leather for a good grip control.  
Forearm protection optimal for cats that stretch long, small animals, primates and other small mammals with pointed teeth.  
Also, suitable smaller for birds of prey or reptiles.

Total length: approx. 53 cm;

**Note:** 100 % puncture/bite protection cannot be guaranteed.

**Code:** TR01

### Protective gloves Profi

Overlong, thick glove with very high protection factor and excellent flexibility.  
For aggressive cats, dogs, monkeys, birds of prey, smaller wildlife;  
Double leather layer on the inside of the thumb/index finger;  
Excellent grip control of the animal.  
Material: Elk leather, as it is more robust and flexible than cowhide, Kevlar® layer and Cordura®;

Total length: about 60 cm, so a large part of the arm is covered.

**Note:** 100 % puncture/bite protection cannot be guaranteed.

**Code:** TR02

## Protective gloves Hercules

Highly effective protective glove against puncture, bite and cut injuries. Many zoos, aquarium experts, animal rescues, fire brigades and poisonous snake experts around the world rely on this glove, which enables significantly reduced stress on the animal with the highest possible protection. The gloves have a special silicone grip surface on the palm of the hand for optimal grip. Easy cleaning at 30°C in the washing machine as well as disinfection possible. CE certification.

Successful bite tests on the following animals showed the highest level of protection:

- Poisonous snakes such as King Cobras, Rattlesnakes, Black Mamba, Taipan, Spitting Cobras, Water Moccasinotters, Lance Vipers, ...
- Non-venomous snakes: Boas, Pythons, Anacondas, ...
- Lizards & Iguanas
- Monitor Lizards
- Birds
- Small crocodiles
- Little stingrays
- Seals & Sea Lions
- Small Sharks
- Young Tigers & Cheetahs
- Otters
- Bats
- Cats & Dogs
- Various monkeys
- Many more ...

Used in trade and industry, zoos, aquariums, veterinarians, animal welfare organizations, fire brigades, military, prisons, customs, hospital waste disposal companies, waste recycling companies, ...

Available in 2 sizes:

9 – Large

10 – X-Large (available 2023)

**Note:** 100 % puncture/bite protection cannot be guaranteed.

**Code:** TR03 (Gr. 9), TR05 (Gr. 10)

## Equipment & Rescue Equipment

### Snake sack

Snake sack made in USA. Extra strong and at the same time soft nylon material. With sewn-off corners and two straps to close the bag. Suitable for the safe capture and transport of several snakes or reptiles at the same time.

Size: 120 cm x 45 cm

**Code:** TR17

### Snake bags

Set of two snake/reptile bags for the safe storage and transport of snakes and other reptiles.

One snake bag each for non-toxic (black lettering) and poisonous (red lettering) reptiles.

The snake/reptile bags are double-stitched from the outside and have beveled corners to prevent biting through. By means of a cord, the bags can be tightly closed.

Dimensions approx. 52 cm x 31 cm.

**Code:** TR18

### Snake hook

Robust stainless-steel rod with high-quality rubber handle, for trapping, lifting or fixing snakes.

Total length: approx. 100 cm

**Code:** TR22

## Snake tong

Grippers suitable for snakes, reptiles and small animals.

Special head with rubber coating for more safety, specially shaped tong surface, particularly wide, for safe and animal-friendly capture.

Available in 3 lengths:

**Length: 130 cm**

**Code: TR19**

**Length: 100 cm**

**Code: TR20**

**Length: 60 cm**

**Code: TR21**

## Snake Bag Profi

**Professional snake bag, triangular with handle (lockable).**

For the safest way to capture and secure transport of snakes and other reptiles.

- Double-layer black cotton back
- Soft material prevents wound rubbing
- Reptiles keep calm through absolute darkness
- Bag is attached to the frame by means of Velcro around the opening of the bag which is washable
- Secure closing and securing of the snake by means of sewn-on fabric tape

Total length incl. bag: 101 cm

Total weight approx. 0.9 kg

Length of removable rod: 66 cm

Width bag: approx. 39 cm

Depth bag: 112 cm

**Code: TR23**

## Landing net Light

### Telescopic net for animals up to approx. 5 kg.

Robust aluminum cutter with a diameter of 50 cm for the optimal capture of birds to small animals. The telescopic rod can be extended to a stem length of up to 180 cm.

### Available with 2 different mesh sizes:

- **4 mm x 4 mm** – suitable for birds, such as Pheasants, Chickens, Pigeons, etc.
- **40 mm x 40 mm** – suitable for small animals, such as Cats, Rodents, etc.

**Code:** TR24

## Landing net Standard

### Professional net gear for animals up to approx. 5.5 kg

Handy triangular net for easier accessibility in confined spaces as well as for catching animals in cages. Robust and proven net with an opening of approx. 41 cm x 43 cm and with approx. 91 cm length. High-quality, fine-meshed net, so that the animal or feathers of birds can't get through or caught. Rod length is about 45 cm and is equipped with a non-slip rubber. The net with locking cord allows quick and safe closing and opening. For smaller animals (cats, etc.) up to approx. 5.5 kg. Made of aluminum for a long service life with a weight of about 1 kg. Manufactured in the USA and for over 30 years often by various animal welfare organizations, emergency services, zoos, and much more in use.

- Mesh opening: 41 cm x 43 cm
- Mesh depth: 91 cm
- Weight: 1,0 kg
- Total length rod: 45 cm
- Rod made of aluminium

**Code:** TR10

## Landing net Plus

### Professional net

The "all-rounder" among professional net gears. A high-quality, fine-meshed net, so that the animal to be caught or feathers of birds can't get caught on a flexible ripe ensure a safe catch success even in confined spaces. The net can be telescoped with a total length of 120 cm up to 175 cm and the rod is equipped with a non-slip rubber. The net with locking cord allows quick and safe closing and opening. Made of aluminum for a long service life with a low weight of about 1.3 kg. Manufactured in the USA and for over 30 years often by various animal welfare organizations, emergency services, zoos, and much more. in use.

- Mesh opening: 41 cm x 43 cm
- Mesh depth: approx. 100 cm
- Weight: 1,3 kg
- Total length: inserted 120 cm, pushed out 175 cm
- Stab aus stabilem Aluminium

**Code:** TR11

## Landing net Profi

### Teleskop net for animals up to approx. 20 kg.

Robust net with wide opening, flexible ring and particularly long net; finely meshed, so that the animal or the feathers of birds can't get caught; Rod length extendable from 93 cm to 170 cm, net can be closed, for small and medium-sized animals up to approx. 20 kg,

- Mesh opening: 51 cm x 43 cm
- Mesh depth: 105 cm
- Weight: 1,7 kg
- Total length (rod + net) = 144 cm bis 221 cm
- Rod made of sturdy aluminium

**Optimal for a long range,  
easy to transport because telescopic!**

**Code:** TR25

## Landing net Heavy

**Divisible net gear with particularly generous opening for animals up to approx. 35 kg.**

- Robust handle bar and ring made of galvanized mild steel
- Handle bar can be decoupled from the mesh ring
- No tangling of the animal

Net with particularly large circular opening (diameter 62 cm). The particularly strong nylon net is securely sewn onto the frame. The mesh size 2 cm x 2 cm prevents the animal from getting caught. The net depth of 115 cm allows the safe capture of medium-sized animals up to 35 kg. The rod (122 cm long) can be separated from the mesh ring, the connection is very solid.

With a little practice, the net can be used to catch a dog on the run. Once the net is over the dog, the rod is turned and the dog remains isolated in the net. The rod can then be removed so that even several dogs can be transported humanely in a suitable vehicle. The net can be cleaned, rinsed and air-dried by soaking it in a disinfectant of your choice. Total weight: approx. 2 kg

**Code:** TR26

## Throw net

For capturing medium and larger animals such as dogs, cats, beavers, large birds, game, larger monkeys etc.

Dimension: approx. 188 cm x 188 cm

**Code:** TR27

## CO<sup>2</sup> Cartridges – 16 g for Netgun Profi (Pack of 5)

**Code:** TR28

## Netgun Profi

With the help of this net cannon, animals such as dogs, cats, birds or rodents can be captured from several meters away - or drones can be intercepted. The safety net is fired using compressed air from commercially available CO2 cartridges. The range is about 20 m. This produces neither flames nor toxic gases. Because of the low projectile energy, the NetGun does not fall under the gun law.

The NetGun is supplied with 4 network heads. The lines of the safety nets are made of nylon (polyamide). The nets are reusable.

### Scope of delivery:

- Pressure vessel
- Trigger mechanism
- Closure lid to pressure vessel
- Mesh heads with lid (4 pieces)
- Nets (4 pieces)
- Safety net weights (16 pieces)
- Aluminium case with foam padding
- CO2 cartridges (5 pieces)

### The nets are available with 2 different mesh sizes – combination (2 + 2) is possible:

- 50 mm - for rabbits, rodents, pigeons etc.
- 100 mm - for cats and medium-sized dogs

**Spare parts – mesh head, nets, weights, cartridges – are available separately on request.**

**Code:** TR29

## Dog pole

Very robust safety rod with 360° rotating head, which is suitable for particularly fast and animal-friendly capture and guiding due to the uncomplicated handling. The rotary head buffers any rotational movements of the animal so that the rod remains in its position. Animals (dogs, cats, racoons, etc.) can thus be guided in an uncomplicated and, above all, particularly animal-friendly manner.

- Automatic blocking mechanism
- Extremely stable aluminium rod with anti-slip handle
- Bite protection (protects the animal's teeth)
- Particularly thick, vinyl-coated sling (not kinkable) prevents injuries
- Release button for easy release of the animal

**Code:** TR30

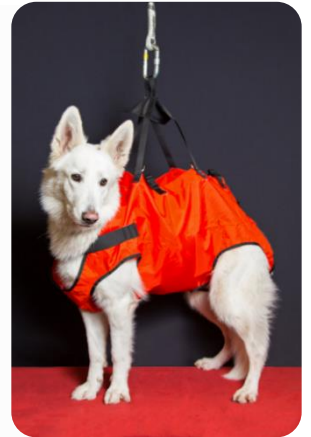

## Dog harness

Specially developed harness for rescue dogs in relief operations as well as for rescuing injured dogs. Supplied with removable shoulder strap for carrying the dog on the back.

- Safe abseiling of the dog from heights (mountain rescue)
- Safe rescue of the dog from depths (canyons, well shafts)
- Safe rescue and transport by helicopter
- Carrying the service dog or injured dog on the back in rough terrain (Avalanche use, mountaineering)

Available in 4 sizes.

**Code:** TR31-01 (Gr. 1), TR31-02 (Gr. 2), TR31-03 (Gr. 3), TR31-04 (Gr. 4)

## Dog life jacket "Delphin"

Novel, high-quality, floating dog jacket with perfect fit. Designed and developed in Italy for rescue dogs and supportive as a swimming aid for all dogs working in the water or on boats. Very fast and easy to put on, thanks to the optimized long Velcro fastener.

Including seat belts with aluminum fasteners and high-strength aluminum ring that allows use with a winch. 6 handles for better handling of the dog in the water and on-board boats.

Thickness: 2 cm

Available in 3 sizes:

S - for dogs up to 25 kg

M - for dogs of 25 bis 40 kg

L - for dogs via 40 kg - auf Anfrage

Weight of the belt:

S - 800 g

M - 1000 g

L - 1300 g

**Code:** TR32-01 (Gr. S), TR32-02 (Gr. M)

## Dog life jacket/climbing harness

### Floating / climbing harness for dogs

Buoyancy bodies on the abdomen and on the back keep the dog afloat. The integrated suspension point also offers the possibility to abseil the dog safely. Thanks to the quick-release buckles, the combination of life jacket and climbing harness can be easily adapted to the individual dog size. Also suitable for dog water rescue operations.

Available in 2 sizes

**Code:** TR35 (Gr. 1), TR36 (Gr. 2)

## Rescue blanket for animals

### Special heat-insulating carrying aid for injured animals.

Up to 60 kg payload.

Dimensions: approx. 120 cm x 80 cm

Properties:

- Safe transport thanks to carrying handles
- Extremely resilient
- Immediate rescue
- Easy handling
- Help & Protection
- Fast transport by one or two people
- Ultra light dead weight
- Cold and heat isolation
- Smartphone Size – ideal for On the Go
- Can be used for rescue or support

**Code:** TR45

## Oxygen masks for animals

### Oxygen masks for dogs, cats and small animals.

The oxygen mask with its cone shape has been specially adapted to animal snouts. A rubber lip seals the mask when it is put on so that medical oxygen can be administered through the animals' noses. For an optimal fit, the masks are offered in 3 different sizes. Each mask is supplied with a 2.1 m long connection hose (latex free) for connection to the pressure reducer of the oxygen cylinder. The masks are **easy to clean** and **reusable several times**. Available in a handy set or retail sale.

#### Sizes:

**S** – cats/small animals

**M** – medium dogs

**L** – large dogs

Material: Polycarbonate

Areas of application: fire brigade, veterinary practice, dog breeder, welfare animal organizations, etc.

#### Oxygen Mask Set:

- 3 oxygen masks – one per size (S, M, L)
- 3 connection hoses
- Practical storage bag
- Illustrated instructions
- Information sheet – First aid for dogs

**Code:** TR40

#### Oxygen masks retail sale:

Oxygen mask in the size of your choice including connection hose and illustrated instructions

**Code:** TR41 (Gr. S), TR42 (Gr. M), TR43 (Gr. L)

## Professional animal Carrier

For professional animal transportation with PVC fabric on a robust stainless-steel frame, buckles and wheels.

- 5 cm wide buckles
- Size: ca. 122 cm x 60 cm x 5 cm
- Weight: ca. 3 kg
- Stain and Bacteria resistant and easy to clean/disinfect
- Very robust PVC material
- 7 cm wheels for every terrain
- Can be used one-handed

Important equipment for animal rescues, veterinarians, animal shelters and animal burials to transport injured, sedated or dead animals.

**Code:** TR47

## Walk toward net

A high-quality nylon net with support rods at both ends for the safe driving or catching of elusive, injured or runaway animals after traffic accidents, for example. With this network, animals can be caught, kept, rounded up or trapped in open areas such as fields or gardens, but also on motorways and open roads until they are transported.

In use, the net is kept stretched between two people to form a barrier (similar to a tennis net), and then approached or circled towards the animals.

Dimension: 4,5 m x 1,3 m

Weight: approx. 2 kg

**Code:** TR50

## Muzzle Set

The professional safety baskets are available in a set in three handy sizes with adjustable head strap. Suitable for most sizes and dog breeds (including breeds with short noses).

- Holes in the front for oxygen administration in case of emergency
- Durable, flexible plastic
- Only for short-term use (emergency, rescue) but not for training or everyday use.
- Easy to disinfect and easy to clean
- Safe and robust

**Note:** The muzzle set is designed for the safety of the emergency crew when rescuing dogs in exceptional situations (car-crashes, fires, police operations ...).

**Code:** TR49

## Carrying strap

Softly polarized, easy to put under the belly of a dog. To gently lift the hind legs without applying excessive pressure to the genitals. Especially beneficial for dogs suffering incontinence or after (abdominal) operations. The carrying straps can be adapted to accommodate breeds of different sizes weighing up to **60 kg**. Neoprene handles provide the necessary support.

Due to the high weight absorption, the carrying strap can also be used in large animal rescue operations to lift the head of a large animal (horse, cattle) in emergency situations.

**Code:** TR53

## Miscellaneous & Useful

### Transport carton

Transport cardboard, foldable with carrying handle, for small animals, cats, reptiles ...

Dimension: 48 cm x 24 cm x 30 cm

**Code:** TR60

### Transport box Plus

Transport boxes in 4 sizes made of plastic with metal door at the front for a safe animal transport.

The integrated ventilation slots (stainless steel grilles) creates optimal air circulation inside the box. The **durable surface** of the frontloader makes it easy and uncomplicated to clean. Thanks to the **practical spring closure on the metal lattice door**, the door can be closed quickly and securely.

Available in 4 sizes:

**S – 49 cm x 32 cm x 30 cm**

For Animals up to 12 kg, with carrying and pull handle.

**Code:** TR61

**M – 79 cm x 65 cm x 59 cm**

For Animals up to 35 kg, with pull handle – 4 wheels separately available (TR65).

**Code:** TR62

**L – 92 cm x 70 cm x 63 cm**

For Animals up to 40 kg, with pull handle – 4 wheels separately available (TR65).

**Code:** TR63

**XL – 105 cm x 76 cm x 73 cm**

For Animals up to 45 kg, with pull handle – 4 wheels separately available (TR65).

**Code:** TR64

## Wheels for Transport box Plus

4 wheels – 2 steerable front wheels with locking system + 2 fixed rear wheels for Transport boxes Plus – Size M - XL

**Code:** TR65

## Transport cage

**Foldable, robust transport cage made of galvanized metal.**

4 carrying handles, 2 doors, 1 sturdy metal shelf;

- Dimension unfolded: approx.: 90 cm x 61 cm x 70 cm
- Dimension folded: approx.: 90 cm x 61 cm x 13 cm
- Dimension of the doors: approx.: 46 cm x 46 cm and 51 cm x 36 cm
- Weight: 16,5 kg

**Code:** TR66

## Small animal transport box Plus

Safe, stress-free removal of small animals weighing up to 10 kg. For easy handling, the transport box can be opened from above and from the front. The metal lattice door with practical spring closure allows quick opening and safe closing. The ventilation slots ensure optimum air circulation inside. Most popular transport box for animal rescue organizations and fire brigades in Austria and Germany.

Material: Plastic / Metal Doors

Dimension: 60 cm x 40 cm x 40 cm

Color: black

**Code:** TR90

## Important Notes

**Last valid prices and shipping costs according to [www.to-bee-safe.com](http://www.to-bee-safe.com).**

Changes, printing and typesetting errors as well as errors excepted.

### Prices

For Prices, please see Price List or [www.to-bee-safe.com](http://www.to-bee-safe.com).

### Shipping costs

#### Standard Shipping:

The shipping costs vary depending on the order (depending on product, quantity, size and weight). Please see Price List or [www.to-bee-safe.com](http://www.to-bee-safe.com).

When ordering via web-shop, the final shipping costs will be shown after selecting the shipping option. Only then can you order with obligation to pay.

If the order is not placed via web-shop, but by e-mail, contact form or telephone, the final shipping costs will be shown in the order confirmation (Invoice).

It is also possible to obtain a corresponding non-binding offer in advance (validity 30 days).

Shipping costs to third countries on request (customs not included).

### Payment

Orders from **EU countries** and orders from **non-EU countries** can be paid via PayPal, Credit card or can be paid by means of immediate payment.
